Individual course to gain or develop basic sculpture skills using papier mâché

DISCOVER AND EXPLORE YOUR ARTISTIC SIDE !

with **MÉLANIE BOURLON** / 06 19 87 19 58

After many years of exploring the art of working with paper and a long time dedicated to personal creations, I am pleased to share my passion for papier mâché with you.

I would be glad to welcome you in my workshop for a two day creative retreat in the company of my beloved pets Gudule and Blaireau !

In this course I will guide you through the making of two papier-mâché sculpture projects and teach you a range of technics which will give you the opportunity to explore your own creative project.

Don't forget to bring all materials, pictures, photos, etc that nourishes your inspiration !

Unlock your creativity !

This course is accessible to beginners and professionals. However it needs to be taken in the context of personal artistic development, as the technics learned during the course are the result of a long research process and shall not be used as teaching materials or for any commercial purposes.

During those two days, I will guide you through :

- Defining your projects and their technical feasibility,
- Constructing a good armature, the key to successful modeling,
- Creating your sculptures,
- Identifying the technical constraints and getting around them.

Once the course is over, you will be able to take your sculpted projects with you and let them dry at home !
